Innovative Spa & Pool Solutions

The worlds best featured and most energy efficient Heat Pumps by SpaNET.

Air sourced heat pumps are the most energy efficient method of heating and SpaNET became the first spa control manufacturer to develop an interface to offer true heat pump integration to a hot tub.

- Save up to 75% of heating costs
- No additional power source required
- Controlled via the spa control panel
- Spa heated nearly twice as fast
- Fully compatible with Fisher Spas
- Fully compatible with Vortex Spas
